The Tuscola County Planning Commission is in the process of preparing a listing of historical resources in our county to be placed on the county website. It is hoped that this will aid historical researchers and perhaps stimulate some tourism.

Present ideas for the listing include the following: Registered Historical Buildings, Centennial Farms, Cemeteries, Museums, Libraries, and Artifacts such as the painting in the Caro Post Office.

We are asking your assistance in gathering the following information:

Name and Location of any cemeteries in your municipality

Name, Location, and Hours of operation for your Museums and Libraries

Name and Location of any historical artifacts that should be included.

If you have any suggestions of other materials that would make our list more complete please feel free to suggest them.

Please send your information and ideas to
